

Martin Denholm, AIA is Vice-President of SmithGroup.

Mr. Denholm has been a practicing architect for over 28 years and a licensed Architect since 1981 with extensive experience in planning, design, technical detailing, production, management, and construction administration for many of the firm's significant Federal Government projects. Past and current clients have included the U.S. Department of State Overseas Buildings Operations (OBO), the Department of Defense, the U.S. General Services Administration and the Smithsonian Institution as well as many institutional and commercial development clients. He has worked on A/E design guidelines and performance requirements for new embassy buildings, and has had experience with building and construction security related to terrorist threats for the past seven years through work with private and governmental clients, including blast and security upgrade studies for existing buildings.

Mr. Denholm is a member of AIA and of the Architectural Engineering Institute of ASCE (AEI), chair of the Building Evaluation Committee, and member of the Rating Systems Development Committee and of the Board of Directors of the Building Security Council. He received the Masonry Design First Award (The Masonry Institute, George Washington University Graduate Research & Teaching Center), the National Honor Award (GSA Design Awards, National Building Museum), the Merit Award (Washington Chapter/AIA, National Building Museum), and the Merit Award for Excellence in Architecture (Washington Chapter/AIA).

Mr. Denholm received degrees of Bachelor of Architecture from Kent State University (1973) and Master of Urban and Regional Planning from the George Washington University (1977).
