

Michael J. Ferreira, P.E., is a senior fire protection engineer and project manager at Hughes Associates, Inc., a fire science and engineering consulting company. He has been responsible for the majority of the firm's smoke management system design projects for the past 10 years, including the design of high-rise stair pressurization systems, and has published several articles on the innovative use of computer models for smoke management system design. Michael is a professional engineer and holds a Bachelor of Science degree in Mechanical Engineering and a Master of Science degree in Fire Protection Engineering from Worcester Polytechnic Institute, in Massachusetts.

Michael is a member of ASHRAE, NFPA, and SFPE. He serves as a member of the NFPA Committee on Smoke Management Systems, responsible for authoring NFPA 92A and NFPA 92B.
