

Join the USA Pavilion!

at the 6th World Water Forum's

World Water Expo

12-17 March 2012 • Marseille, France

The World Water Expo is a significant component of the World Water Forum with over 20,000 visitors and nearly 200 pavilions at previous Fora. The Forum itself is an event that achieves world-wide visibility and media coverage. The Expo is the base of operations for many of the Forum's participating organizations and political entities.

The 2012 USA Pavilion at the 6th World Water Forum Expo promises to be an even greater success than in 2009. It will serve as the home base for many of the U.S.-based corporations, organizations, and governmental agencies in the water community.

Join us in 2012 to demonstrate the advances being made, the knowledge being shared, and the solutions being applied in and by these United States in the area of WATER.

The 2009 Exhibitors within the USA Pavilion in Istanbul included:

USAID-ABRI
USACE-IWR
USGS
ASCE/EWRI
WEF
USDA

USBR
USACE
EWB
Tetra Tech
USDA/CREES/NRE

For more information on joining the USA Pavilion, please contact Ann Rountree at arountree@asce.org or 703-295-6034.

For more information in participating in the U.S. delegation to the Forum, please contact Brian Parson at bparsons@asce.org or 703-295-6071.
